| FM NAVIGATOR | Never let your drivers get lost with turn by turn navigation, thus saving time and improving efficiency. | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ | ✓ |

STANDARD FEATURES OPTIONAL EXTRAS

MiX Telematics provides a range of dedicated fleet management packages that cover all your needs. You can choose the package that suits your business. The underlying Fleet Manager(FM) platform is modular, which means the packages also provide you with the flexibility you need to manage your fleet and staff more effectively, whilst protecting your investment now and into the future.

ACCESSORIES (OPTIONAL)

The MiX Telematics Fleet Manager (FM) range of products can be combined with a wide range of optional accessories to provide you with extensible, scalable solutions. This flexibility helps provide you with an ongoing return on your investment.

FM Terminal is an in-vehicle display unit for recording driving reasons and facilitating messaging between drivers and the office.

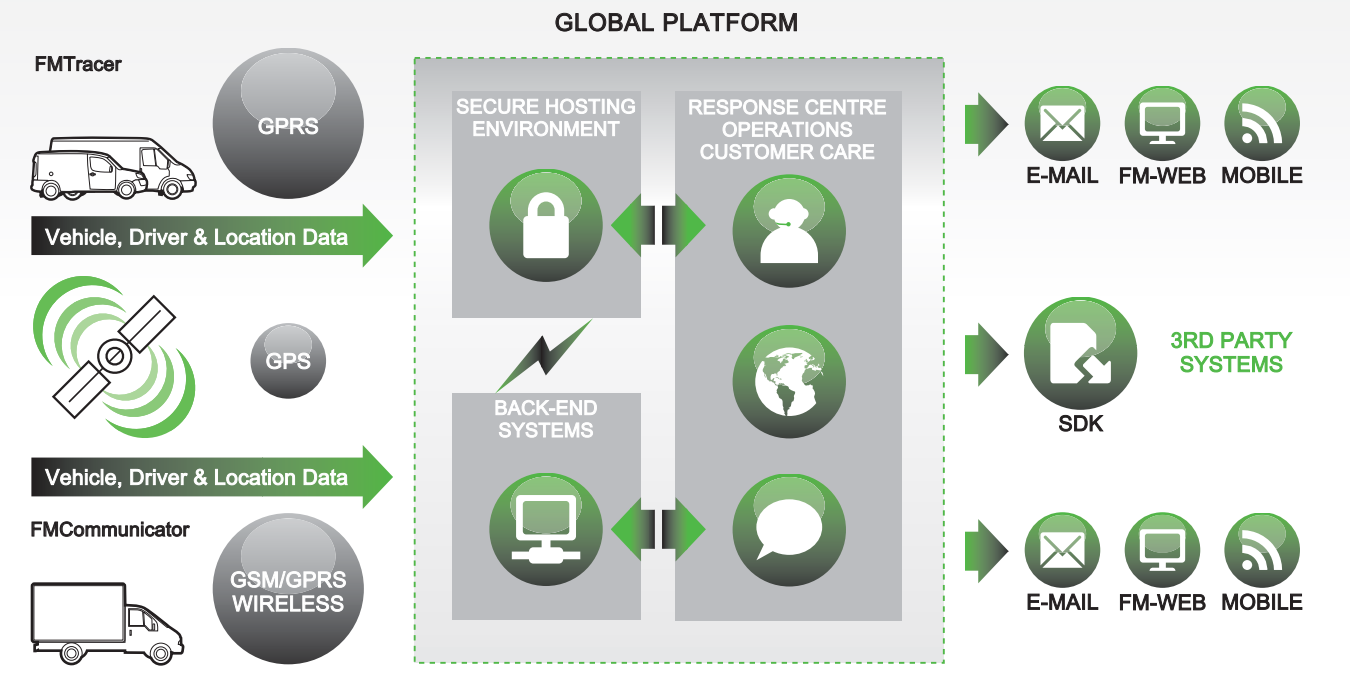

Navigation Systems provide turn-by-turn audio navigation assistance to drivers and are used for displaying jobs and messages to drivers.

FM SatComms accurately transmits vehicle position and critical events in remote areas.

FM Voice Kit allows for safe and convenient hands-free calling using the same SIM card that is inside the on-board computer.

Behind the scenes, MiX Telematics takes care of the data transfer, administration and management of your vehicle data, whilst an extensive security model ensures the right information is delivered to the right people, at the right time.

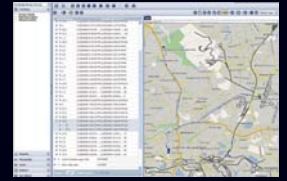

By subscribing to MiX Telematics' secure web-based fleet management service, FM-Web you can view and manage your information in a secure manner with a web browser, anywhere, anytime. Information can also be delivered to your e-mail inbox or mobile phone.

- ✓ Secure hosting facilities
